7380N/7385N

Product no. **54010001**
GTIN **4018754136124**
Model **7380N**

Label. Torque angle gauge No. 7380N Internal square 1/2" External square 1/2" L.416mm

- Features.**
- for angle controlled bolt/screw tightening, with static read-off point
 - read-off possible from any angle thanks to a pair of angled scales
 - removable magnet for attaching sockets with 1/2" internal square drive
 - for use in conjunction with tightening tools such as service MANOSKOP® No 730N
 - since this tightening method requires a pre-determined snug torque to be applied, it is essential to choose a torque wrench covering both snug torque as well as maximum torque required to reach the recommended tightening angle
 - whether 1/2" or 3/4" square drive torque angle gauge is used depends upon the square drive of the appropriate torque wrench employed

Advantages.

For rotation angle controlled screw tightening, with stationary reading point.
