Product highlights.

Order and check.

The set is securely organised in a STAHLWILLE TCS foam inserts. These durable inlays are chemical-resistant and have precise recesses for each tool. The eye-catching yellow underside of the TCS inserts serves as a signal surface to enable quick checking of the set's completeness.

Technologies and features.

Tool Control System

The intelligent modular insert system protects and organises the tools in tool boxes, workshop trolleys and workshop benches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

Double-T profile

Our combination and ring spanners have an additional recess in the middle of the tool. Similar to the principle of a double T-beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.
