

## Combination ratcheting spanner set OPEN RATCH, offset, metric, in roll- up tool pouch

### OPEN RATCH 17

Product no.	96411715
GTIN	4018754349951
Model	OPEN RATCH 17/15

#### Label.

Combination ratcheting spanner set OPEN RATCH 17/15 8-24 15 pcs.

#### Features.

- spanners with imperial dimensions, equal widths in roll-up pouch
- jaw side straight, ring side 15° angled
- sturdy, slim and lightweight intelligent design
- high bending strength due to double T-profile
- non-slip, skin-friendly surface
- extremely sturdy, exceptionally durable
- drop-forged, hardened and cooled in oil bath
- Chrome Alloy Steel, chrome plated
- sturdy roll-up pouch with hook and loop fastener made of polyester
- mesh inserts allow visibility of the inserted tool
- safe protection of the tool with minimum space requirement

## Advantages.

High-quality combination ratcheting spanner set in metric sizes.

The integrated ratchet with 72 teeth makes it possible to ratchet at an angle of just 5°.

Switchable ratchet for quick tightening and loosening of screws.

High-quality, non-slip surface texture – for safe working even with oily hands.

In a space-saving tool roll for safe and well-organised storage.

## Product highlights.

### Field-tested configuration.

Our ratcheting combination spanner set contains the most common spanner sizes from 8 to 24 mm and therefore covers a wide range of possible applications. The jaw opening is inclined by  $15^\circ$ , which means that it lies precisely against the screws and therefore guarantees optimum power transmission. The integrated fine-tooth ratchet enables screws to be tightened quickly and efficiently without having to remove the spanner.

### Excellent workmanship.

Our spanners are made from high-quality forged chrome alloy steel, giving them outstanding robustness and durability, even in continuous and prolonged use. They also have a corrosion-resistant chrome-plated finish.

### Non-slip surface.

The STAHLWILLE spanners have a high-quality surface structure with a good grip, which even allows you to work safely and securely with oily hands. The non-slip property increases handling control.

## Technologies and features.

### Double-T profile

Our combination and ring spanners have an additional recess in the middle of the tool. Similar to the principle of a double T-beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

### Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.

## Technical Drawing.

## Technical Attributes.

Number of tools	15 pcs.
Range	8-24
Model no.	17/15

## Logistics data.

Depth mm (IFS)	345
Width mm (IFS)	180
Height mm (IFS)	70
Length (packed, mm)	345
Width (packed, mm)	180
Height (packed, mm)	70
Volume (packed, dm3)	4.347 dm3
