## Product highlights.

### Order and check.

The set is securely organized in a STAHLWILLE TCS foam inserts. These durable inlays are chemical-resistant and have precise recesses for each tool. The eye-catching yellow underside of the TCS inserts serves as a signal surface to enable quick checking of the set's completeness.

## Technologies and features.

### Tool Control System

The intelligent modular insert system protects and organizes the tools in tool boxes, workshop trolleys and workshop benches. Two-color foam inlays make checking the completeness of the tools quick and easy.

### Double-T profile

Our combination and ring wrenches have an additional recess in the middle of the tool. Similar to the principle of a double-T beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

### Offset Shaft Design

Our wrenches are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.
