

Combination spanner set OPEN BOX, metric

OPEN BOX 14

Product no. **96401006**
GTIN **4018754080724**
Model **OPEN BOX 14/11**

Label.

Combination spanner set OPEN BOX 14/11 8-22 11 pcs.

Features.

- spanners with metric, equal wrench sizes in roll-up pouch
- DIN 3113 Form A/ISO 7738 Form A
- jaw side straight, ring side 10° angled
- sturdy, slim and lightweight intelligent construction
- high bending strength due to double T-profile
- STAHLWILLE round finish ensures a surface that is pleasant to the skin and has a good grip
- extremely resilient, exceptionally durable
- drop-forged, hardened and cooled in oil bath
- chrome-alloy-steel, chrome plated
- Robust roll-up bag with hook-and-loop fastener made of polyester
- Mesh inserts allow a view of the inserted tool
- Safe protection of the tool with minimum space requirement
- Embroidered STAHLWILLE logo

Content:

SW 8; 10; 13; 16; 17; 18; 19; 22 mm

Advantages.

Made in Germany - Combination spanner set in sturdy roll-up case, 11 pcs.-pce., 8-22 mm, ring side 15° angled, DIN 3113 Form B / ISO 7738 Form B, .

Special manufacturing process makes thin-walled rings possible – perfect for screwdriving in places that are difficult to access.

The practical roll-up tool pouch provides a well-organised storage solution.

The long force loading point requires less effort with constant torque.

The AS-Drive profile prevents edge damage caused by force being applied to the edges of the screw or nut.

Product highlights.

IN PROGRESS

Non-slip surface

STAHLWILLE spanners have a high-quality surface finish with good grip, making it possible to work safely and efficiently, even with greasy hands. The non-slip property improves control during handling.

A solution for every situation.

Our combination spanners are available in different versions (metric, imperial, long, with Spline-Drive profile) and as sets in textile bags, roll-up tool pouches or TCS inserts.

Organised storage.

The set can be stored in the compartments of a practical roll-up tool pouch. This makes it convenient and compact enough to carry anywhere. Transparent mesh inserts provide a quick view of the contents of your tool set.

Technologies and features.

Double-T profile

Our combination and ring spanners have an additional recess in the middle of the tool. Similar to the principle of a double T-beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Thin-walled rings

The thin wall diameter of our rings makes it easier to work in confined spaces. The ring sides are taller than standard nuts, which prevents jamming.

Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.
