Advantages.

High quality double-ended ring spanner, deeply cranked, with metric spanner sizes.

The distinctive STAHLWILLE rounded finish gives the combination spanner a non-slip and pleasant feel for safe working, even with oil-smearred hands.

A special manufacturing process makes thin-walled rings possible – primarily for slightly lower-lying screw connections.

Manufactured from durable chrome-alloy steel for a long service life and resistance to wear.

Technologies and features.

Anti-Slip-Drive

The special AS-Drive profile makes high force transmission to the flats of screws and bolts possible without damaging them. This also prevents stripping of the screw head.

Thin-walled rings

The thin wall diameter of our rings makes it easier to work in confined spaces. The ring sides are taller than standard nuts, which prevents jamming.
