

Combination ratcheting spanner set OPEN RATCH, 5 pcs., offset, metric, in TCS insert

TCS OPEN RATCH 17/5

Product no.	96830650
GTIN	4018754328178
Model	OPEN RATCH TCS 17/5

Label. Combination ratcheting spanner set OPEN RATCH TCS 17/5 8-19 5 pcs.

Features.

- Combination ratchet wrench set with metric, equal wrench widths in TCS insert
- Jaw side straight, ring side 15° angled
- Stable, slim and light design
- High bending strength due to double T-profile
- Easy-grip, skin-friendly surface
- Drop-forged, hardened and cooled in an oil bath
- Chrome Alloy Steel, chrome-plated
- Tool assortment in foam insert, modular Tool Control System (TCS) – safety integrated

Contents:

No. 17: 8; 10; 13; 17; 19 mm

Advantages.

High-quality combination ratcheting spanner set in metric sizes.

The 72-tooth ratchet allows a working angle of only 5° - for efficient work even in the tightest spaces.

The distinctive STAHLWILLE round finish gives the ratchet ring open-end spanner a non-slip and pleasant feel for safe working, even with oil-smearred hands.

The practical safety insert system is an intelligent storage solution for tool trolleys and workshop trolleys.

The ring side has a flat design with double hexagon and a jaw position of 15° for working even in hard-to-reach places.

Product highlights.

Field-tested configuration.

Our ratcheting combination spanner set contains the most common spanner sizes from 8 to 19 mm and therefore covers a wide range of possible applications. The jaw opening is inclined by 15°, which means that it lies precisely against the screws and therefore guarantees optimum power transmission. The integrated fine-tooth ratchet enables screws to be tightened quickly and efficiently without having to remove the spanner.

Excellent workmanship.

Our spanners are made from high-quality forged chrome alloy steel, giving them outstanding robustness and durability, even in continuous and prolonged use. They also have a corrosion-resistant chrome-plated finish.

Non-slip surface.

The STAHLWILLE spanners have a high-quality surface structure with a good grip, which even allows you to work safely and securely with oily hands. The non-slip property increases handling control.

Order and check.

The set is securely organised in a STAHLWILLE TCS foam inserts. These durable inlays are chemical-resistant and have precise recesses for each tool. The eye-catching yellow underside of the TCS inserts serves as a signal surface to enable quick checking of the set's completeness.

Technologies and features.

Double-T profile

Our combination and ring spanners have an additional recess in the middle of the tool. Similar to the principle of a double T-beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.

Tool Control System

The intelligent modular insert system protects and organises the tools in tool boxes, workshop trolleys and workshop benches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

Technical Attributes.

Number of tools	5 pcs.
Range	8-19
Width mm (b)	175 mm
Height mm (h)	40 mm
Length mm (L)	350 mm
Drawer dividers	1/3

Logistics data.

Depth mm (IFS)	360
Width mm (IFS)	180
