The handle dimensions are precisely matched to the drive sizes for improved ergonomics.

The flange-like manual stop prevents injuries caused by the tool accidentally slipping or rolling away unintentionally.

Sturdy chrome-alloy steel gives the screwdriver outstanding durability and wear resistance.

Product highlights.

Individual.

The four handle sizes for the screwdrivers are designed specifically to match the drive profiles.

Outstanding craftsmanship.

The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

Robust.

Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.
