

Combination ratcheting wrench set OPEN RATCH, inch, offset, in roll-up tool bag

OPEN RATCH 17a

Product no. **96411713**
GTIN **4018754344826**
Model **OPEN RATCH 17a/12**

Label.

Combination ratcheting wrench set OPEN RATCH 17a/12 1/4-1" 12

Product highlights.

Non-slip surface.

Our ratcheting combination wrench set contains the most common wrench sizes with inch dimensions and therefore covers a wide range of possible applications. The jaw opening is inclined by 15°, which means that it lies precisely against the bolts and therefore guarantees optimum power transmission. The integrated fine-tooth ratchet enables bolts to be tightened quickly and efficiently without having to remove the wrench.

Excellent workmanship.

Our wrenches are made from high-quality forged chrome alloy steel, giving them outstanding robustness and durability, even in continuous and prolonged use. They also have a corrosion-resistant chrome-plated finish.

Non-slip surface.

The STAHLWILLE wrenches have a high-quality surface structure with a good grip, which even allows you to work safely and securely with oily hands. The non-slip property increases handling control.

Organized storage.

The set can be stored in the compartments of a practical roll-up tool bag. This makes it convenient and compact enough to carry anywhere. Transparent mesh inserts provide a quick view of the contents of your tool set.

Technologies and features.

Double-T profile

Our combination and ring wrenches have an additional recess in the middle of the tool. Similar to the principle of a double-T beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Offset Shaft Design

Our wrenches are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.
