

Combination spanner, inch

130a

Product no. **40571818**
GTIN **4018754020638**
Model **130a 9/32**

Label.

Combination spanner Spanner size 9/32 " L.110mm

Features.

- Fed. Spec. GGG-W-636 E
- HPQ® heavy-duty steel, chrome-plated

Advantages.

Made in Germany – STAHLWILLE Combination spanner, inch, open end 15° angled, length 110 mm, Fed. Spec. GGG-W-636 E, 40571818

The double-T profile gives the spanner outstanding bending strength.

Special manufacturing process makes thin-walled rings possible – perfect for screwdriving in places that are difficult to access.

The distinctive STAHLWILLE rounded finish gives the spanner a non-slip and pleasant feel for safe working, even with oil-smear hands.

Product highlights.

A solution for every situation.

Our combination spanners are available in different versions (metric, imperial, long, with Spline-Drive profile) and as sets in textile bags, roll-up tool pouches or TCS inserts.

Technologies and features.

High Performance Quality (HPQ®)

Our HPQ® tool is made of wear-resistant high-performance steel, yet is thin-walled and lightweight. It withstands high torques and is ideal for work in confined spaces such as turbines.

Anti-Slip-Drive

The special AS-Drive profile makes high force transmission to the flats of screws and bolts possible without damaging them. This also prevents stripping of the screw head.

Double-T profile

Our combination and ring spanners have an additional recess in the middle of the tool. Similar to the principle of a double T-beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Thin-walled rings

The thin wall diameter of our rings makes it easier to work in confined spaces. The ring sides are taller than standard nuts, which prevents jamming.

Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.

Technical Drawing.

Technical Attributes.

a1	4,1 mm
a2	6 mm
Width mm (b)	15.5 mm
d	10,9 mm
DIN	Fed. Spec. GGG- W-636 E
Length mm (L)	110 mm
Jaw angle	15 °
Ring position	15 °
Spanner size 1 [inch]	9/32 "
Spanner size 2 [inch]	9/32 "
