## Product highlights.

### For improved safety.

Designed with practical applications in mind, drop forged, precision machined on the latest machine tools, hardened and tempered: the STAHLWILLE puller range offers numerous products for a wide variety of applications. For example, standard pullers, cell terminal pullers, ejectors, counter stays, ball joint pullers and wheel hub pullers. Made, of course, in Germany as premium quality tools.

### 2vs3 - Two- or three-legged pullers?

A three-legged puller is generally preferable to a two-legged one provided there is sufficient space because it distributes the pulling forces more evenly.

**Resilient.**

Heavy-duty extractor hooks made of oilhardened chrome vanadium steel with special-purpose access geometry for use in tight spaces. Radii adapted for shafts and axles.
