

Combination ratcheting spanner set OPEN RATCH, 12 pcs., offset, inch, in TCS insert

OPEN RATCH TCS 17a/12

Product no. **96830654**
GTIN **4018754344840**
Model **TCS 17A/12**

Label.

Combination ratcheting spanner set TCS 17A/12 1/4-1" 12 pcs.

Features.

- Ring spanner 15° angled, jaw position 15°
- 72 teeth, working angle 5°
- jaw position 15°
- reversible
- sturdy, slim and light construction
- high bending strength due to double T-profile
- non-slip, skin-friendly surface due to STAHLWILLE round finish
- drop-forged, hardened and cooled in an oil bath
- Chrome Alloy Steel, chrome-plated
- Tool assortment in tool insert modular system Tool Control System (TCS) - safety integrated

Contents 12 pieces:

5 combination ratcheting spanners **No. 17a**: 1/4; 5/16; 3/8; 7/16; 1/2; 9/16; 5/8; 11/16; 3/4; 13/16; 7/8; 1".

Advantages.

High-quality 5-piece combination ratcheting spanner set with inch sizes.

The ratchet with 72 teeth allows a working angle of only 5° - for efficient working even in the tightest spaces.

The distinctive STAHLWILLE round finish gives the ratchet ring spanner a non-slip and pleasant feel for safe working, even with oil-smearred hands.

In the Tool Control System (TCS) tool storage system - an intelligent storage solution for tool trolleys and workshop trolleys.

The ring side has an angled design with double hexagon, the jaw position of 15° enables work even in hard-to-reach places.

Product highlights.

Non-slip surface.

The STAHLWILLE spanners have a high-quality surface structure with a good grip, which even allows you to work safely and securely with oily hands. The non-slip property increases handling control.

Excellent workmanship.

Our spanners are made from high-quality forged chrome alloy steel, giving them outstanding robustness and durability, even in continuous and prolonged use. They also have a corrosion-resistant chrome-plated finish.

Non-slip surface.

The STAHLWILLE spanners have a high-quality surface structure with a good grip, which even allows you to work safely and securely with oily hands. The non-slip property increases handling control.

Technologies and features.

Double T-profile

Our combination and ring spanners have an additional recess in the middle of the tool. Similar to the principle of a double T-beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.

Tool Control System

The intelligent modular insert system protects and organises the tools in tool boxes, workshop trolleys and workshop benches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

Technical Attributes.

Number of tools	12 pcs.
Range	1/4-1"
Width mm (b)	175 mm
Height mm (h)	50 mm
Length mm (L)	350 mm
Drawer dividers	1/3
