Advantages.

Three-stage safety concept: 1. Central locking by side cylinder lock with folding key 2. Individual locks prevent inadvertent opening while in transit 3. Tilt protection – it is not possible to pull out several drawers at the same time.

With 7 full-extension drawers, 2 of them in XXL format, and lockable cabinet section.

Three-stage security concept with single lock and foldable key.

Can be extended with an e-kit with triple socket, cable and magnetic holder and USB ports.

With cable outlets and a cable duct for an organized and safe working environment.

Product highlights.

Perfectly equipped.
Of course, our workbench is also available with matching tool sets. However, in case of individual requirements, we are also happy to assemble bespoke sets for our customers. Just get in touch.

Ergonomic height.
The working height of 104 cm and the particularly large, FSC-certified worktop makes work more comfortable.

Well thought out, sturdy design.
High-quality materials ensure the durability that is typical of STAHLWILLE, such as the sturdy housing and drawers with their industrial powder coating. The oil- and acid-resistant lightweight wheels (Ø 125 mm) are equipped with guards to protect the bearings from dirt and fibres, with two locking brakes.

Three-stage safety concept.
The central lock with countersunk, side-mounted cylinder lock, together with the foldable key, protects against injury and damage. The individual locking mechanism prevents unintentional opening during transit – the anti-tilt protection makes it impossible to pull out multiple drawers simultaneously.
