Advantages.

For the drawers of tool trolley No. 13217

Combines the advantages of several tools: centring on the screw head of a ring spanner, lateral mounting of an open-end spanner, plus reliable ratcheting.

Thanks to the patented technology of the 'opening ring', it performs perfectly even in installation locations which are difficult to access, such as cable screw connections.

The distinctive STAHLWILLE round finish gives the ratchet spanner a non-slip and comfortable feel for safe working, even with oil-smearred hands.

In our modular Tool Control System (TCS) tool inserts – an intelligent storage solution for tool trolleys and workshop wagons.

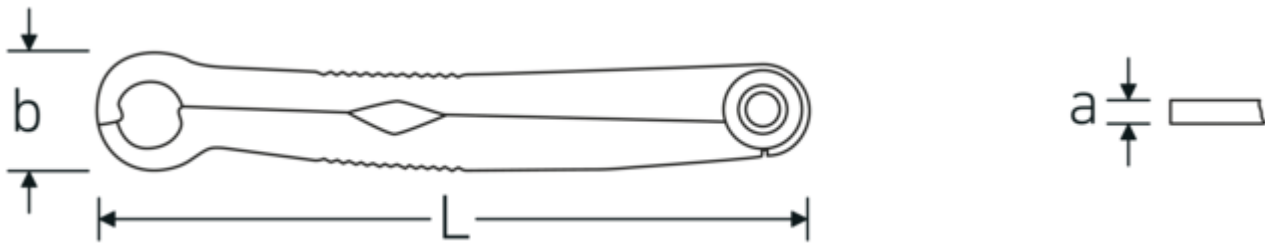

Technologies and features.

Tool Control System

The intelligent modular insert system protects and organises the tools in tool boxes, workshop trolleys and workshop benches. Two-colour foam inlays make checking the completeness of the tools quick and easy.
