- Patented

Advantages.

QuickRelease secures every single link in the tool chain – from the ratchet to the extension to the socket spanner insert.

Other locking systems on the market only fix the first insertion tool on the ratchet.

More efficiency. Tool changing is not only safe, but also quicker to perform.

Prevents the loss of socket inserts, even at hard-to-reach screw points or in long threaded holes.

Easily accessible and ergonomically optimised mechanism secures the tool without taking up extra space.
