1 engineer's hammer No. 10961: 500 g

1 water pump pliers **No. 6551**: L. 240 mm

1 combination pliers **No. 6700**: L. 160 mm

1 side cutters **No. 6720**: L. 180 mm

Benefits.

2-in-1: Trolley and backpack in one - for every job, equipped with a wide range of handheld tools.

Sturdy bit box with an extensive assortment, quick change holder and bits with all common screw profiles, large bit ratchet with handle.

High-quality 1/4" mini ratchet set with QuickRelease function, continuous for fine-tooth ratchet and extension.

Heavy-duty forged double open-ended spanner, gripping and cutting pliers for universal repairs.

Technologies and features.

QuickRelease

The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.

Foreign Object Damage

STAHLWILLE protects against FOD (Foreign Object Damage). Our tool is ideal for safety-relevant sectors such as aviation, thanks to the screwless design.

Anti-Slip-Drive

The special AS-Drive profile makes high force transmission to the flats of bolts and nuts possible without damaging them. This also prevents stripping of the screw head.

High Performance Quality (HPQ®)

Our HPQ® tool is made of wear-resistant high-performance steel, yet is thin-walled and lightweight. It withstands high torques and is ideal for work in confined spaces such as turbines.

Fine-tooth ratchet mechanism

Our fine-tooth ratchets with 80 teeth re-engage after just 4.5° for maximum precision in confined spaces. 8 pairs of parallel teeth simultaneously ensure maximum load-bearing capacity and particularly smooth running, even at high torques.

Technical attributes.

Number of tools	105 pcs.
Width mm (b)	380 mm
