### Complete solution for industry.

Our extensive range includes high-quality tools for a wide range of applications, such as vehicle maintenance, general repairs or assembly and disassembly work. It includes wrenches with various sizes, sockets up to 32 mm, a large bit set, a wide selection of pliers and much more. With this equipment, you get a broad foundation for a wide range of applications in the automotive, electrical and mechanical engineering industries.

### Mobile workstation.

The 7 full-extension drawers are pre-equipped with STAHlwILLE tools in safety foam inserts. A separate, lockable cabinet section with height-adjustable shelf provides additional storage space. The spacious 115 cm long work surface allows you to examine large components. Organized cable routing increases your safety in the workplace. With a working height of 104 cm and four smooth-running wheels, you have the ideal conditions for ergonomic and mobile working, both in and outside the workshop.

### Secure down to the last detail.

The central lock with countersunk, side-mounted cylinder lock, together with the foldable key, protects against injury and damage. The individual locking mechanism prevents unintentional opening during transit - the anti-tilt protection makes it impossible to pull out multiple drawers simultaneously.

### Smart cable management.

A detachable cable duct helps to neatly route and organise cables for electrical devices. This reduces the risk of tripping over or damaging the cable, thus increasing safety in the workplace. 2 cable outlets on the back also facilitate the power supply, e.g., when charging stowed battery-powered devices.

## Technologies and features.

### Tool Control System

The intelligent modular inlay system protects and organizes the tools in tool boxes, tool trolleys and workbenches. Two-color foam inlays make checking the completeness of the tools quick and easy.

### Modular Inlay System

This flexible solution for tool storage makes it possible to customize your tool trolleys and workbenches with 1/6, 1/3, 2/3 or 3/3 foam inlays.

### QuickRelease

The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.

## Technical attributes.

Number of drawers	7 + 1 Fach
Number of tools	161
Width mm (b)	1150 mm
Colour	anthracite, RAL 7016

## Logistics data.
