## Benefits.

For safe and efficient work at voltages up to 1000 volts.

Application-optimised product design, high-quality materials, tight tolerances, excellent ergonomics and long service life with durable and long-lasting protective insulation.

2-component handle with soft-grip zones for precise work.

Automatic lock to prevent unintentional removal and attachable twist cap for interchangeable blades.

Robust quality tool for the professional user - Made in Germany

## Product highlights.

### Outstanding craftsmanship.

The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

### Robust.

Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.

### Versatile.

The lever hole allows even more power and torque if necessary.
