Takes on anything.

The 877 x 481 mm work surface is particularly suitable for working on large components. The integrated compartments for small parts ensure a tidy and clearly arranged storage area. Thanks to its robust construction, the TTS 93 has a static load capacity of 500 kg. Thanks to reinforcements, the drawers can be loaded with 30 kg and the bottom drawer even with 45 kg.

Maximum safety.

The central locking system with side cylinder lock and folding key protects the tool from unauthorized access. The tilt protection prevents multiple drawers from being pulled out at the same time to avoid the risk of injury or damage.

Order made easy.

The integrated compartments for small parts not only ensure a tidy and clear storage area, but also increase their functionality and create an organized environment where everything remains within easy reach.

**Optimally organized.**

All drawers can be pulled out 100%. In combination with the STAHLWILLE standard and TCS inlays or the variable drawer dividers, you are always assured of optimum overview and convenient tool removal.

**Optimally organized.**

All drawers can be extended up to 100 %. Combining the use of STAHLWILLE standard and TCS inlays, or the variable drawer dividers, ensures a clear overview and convenient access to tools.

**Full configuration as standard.**

Whether paper roll holders, perforations on both sides for attaching accessories, locking brakes or oil and acid-resistant smooth-running castors (Ø 125 mm) with thread protection. Our tool trolley comes with many features as standard.

Technologies and features.

**Tool Control System**

The intelligent modular inlay system protects and organizes the tools in tool boxes, tool trolleys and workbenches. Two-color foam inlays make checking the completeness of the tools quick and easy.
