Benefits.

High quality double-ended ring spanner, flat cranked, in imperial AF spanner sizes.

Technologies and features.

High Performance Quality (HPQ®)

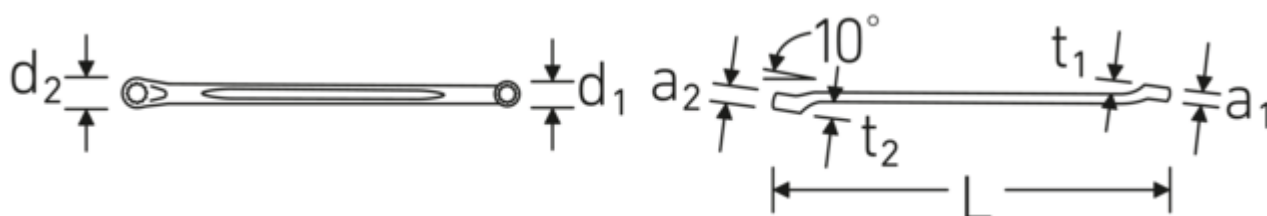

Our HPQ® tool is made of wear-resistant high-performance steel, yet is thin-walled and lightweight. It withstands high torques and is ideal for work in confined spaces such as turbines.

**Anti-Slip-Drive**

The special AS-Drive profile makes high force transmission to the flats of bolts and nuts possible without damaging them. This also prevents stripping of the screw head.

**Thin-walled rings**

The thin-walled diameter of our rings makes it easier to work in confined spaces. The ring wall is deeper than standard nuts, which prevents jamming.
