## Bolt cutters LightCUT®

### 980LC

Product no. **87980050**  
GTIN **4005887009876**  
Model **BOLZENABSCHNEIDER  
LIGHT-CUT 800**

#### Label.

Bolt cutters LightCUT® L.800mm 48HRC

#### Properties.

- flat-oval, sturdy aluminium tubes ensure low weight
- for cutting up to 48 HRC
- cutter head made of wear-resistant special steel, drop-forged
- precise and simple adjustment of the cutting heads using eccentric screws
- optimized geometry reduces the effort required for cutting
- limit stop with extra-large buffer zone
- high-quality hardened and tempered for excellent wear resistance
- with 2-component handles

## Product highlights.

PRODUCT IMAGE

#### Infinitely adjustable.

The sturdy, flat oval aluminium tubes make the bolt cutter particularly light, weighing about half as much without compromising the necessary stability. Heavy cabling, round bars, steel, reinforcing steel mesh, steel mesh, chain-link fences or chains up to 48 HRC can be cut effortlessly, powerfully and without fatigue, even during longer periods of use.

#### Low wear and long service life.

The blades are made of inductively hardened, drop-forged special steel. These particularly low-wear blades remain reliably sharp even with intensive use. Thanks to the eccentric screws, the knives can be easily adjusted at any time, ensuring that the cutting capacity remains clean and precise at all times. The bolt cutter itself is high-quality, hardened and tempered for excellent wear resistance.

### Maximum cutting performance.

Our bolt cutter impresses with its high cutting capacity and low effort: the combination of an optimally coordinated cutting angle and transmission ratio makes cutting thick or hard bolts particularly easy. The stop with an extra-large buffer zone acts as a shock absorber, protects the tool and increases safety when working.

### Safe handling.

The non-slip, specially shaped 2-component handles fit securely and comfortably in the hand. They enable precise control of the tool, increase comfort when cutting and minimise the risk of slipping.

## Technologies and features.

### LightCUT®

The flat-oval, high-strength aluminum tubes of the LightCUT® series ensure a low weight, approximately half that of a comparable tool. For fatigue-free working and precise results.

## Technical attributes.

Hardness	48 HRC
Length " (L)	32 "
Length mm (L)	800 mm
Physical length [mm]	810 mm
Cutting performance 19 HRC	10 mm
Cutting performance 40 HRC	8 mm
Cutting performance 48 HRC	7 mm

## Logistics data.

Depth mm (IFS)	810
