Every grip is perfect.

The ergonomically designed handles are covered with a non-slip plastic coating with a rough surface texture. This makes the pliers comfortable to hold and enables fatigue-free working - even with dirty hands. The integrated pinch guard provides reliable protection against crush injuries.

Flexible quick adjustment

The pliers can be adjusted to the workpiece using a precise, multi-stage, single-button quick adjustment mechanism. The adjustment, with up to 15 detents, is quick and easy to operate using a push button, making these water pump pliers flexible to use. The jaw opening is locked in place, eliminating the need for repeated adjustments for recurring equal screwdriving operations. An integrated clamp guard prevents crush injuries.

The sliding slip joint with double support provides exceptional stability and a particularly long service life, even under high loads. The robust construction guarantees reliable performance, even under demanding conditions.

PRODUCT IMAGE
IN PROGRESS**Particularly durable and wear-resistant.**

Made from high-quality Chrome Alloy Steel and high-quality tempered, our water pump pliers meet the highest standards of robustness and durability. The inductively hardened jaw serration gives them additional hardness and wear resistance.
