

Heavy-duty mechanic's nippers MasterCUT®

512-0

Product no. **87512000**
GTIN **4005887013804**
Model **MasterCUT® 512-0 200**

Label.

Heavy-duty mechanic's nippers MasterCUT® L.200mm Header polished Handles chrome-plated

Properties.

- slim version is suitable for working on low-lying cast iron
- for twisting and cutting the wire
- extended handles and optimized cutter geometry reduces the effort required for cutting
- particularly easy to use
- significantly dampened cutting impact
- chrome-plated, head polished
- wear-resistant special steel
- DIN ISO 9242

Product highlights.

PRODUCT IMAGE

Fixing and cutting in one step.

Our mechanic's nippers, also known as Rabitz or braiding pliers, save you time and effort: binding wire is fixed directly from the roll, twisted in a single step and cut cleanly. Ideal for reinforced concrete construction and all work where wire connections must be reliably secured or quickly loosened or made.

PRODUCT IMAGE

Slim design for hard-to-reach areas.

The particularly small head shape and the overall slim design enable precise work even on low-lying reinforcing bars - so you can easily reach places on the construction site that are difficult to access with conventional pliers.

Reduces effort work.

The high-ratio joint ensures maximum leverage and significantly reduces the effort required. Even thicker binding wires can be processed without great effort.

PRODUCT IMAGE

Comfortable handling.

The dampened cutting action of the mechanic's nippers makes every cut noticeably more comfortable and reduces strain on joints and tendons. In combination with the smooth-running mechanism, the pliers enable fatigue-free working in daily use.
