Mobile workstation.

The 7 full-extension drawers are pre-equipped with STAHLWILLE tools in safety foam inlays. The spacious 115 cm long work surface allows you to examine large components. With a working height of 104 cm and four smooth-running wheels, you have the ideal conditions for ergonomic and mobile working, both in and outside the workshop.

Secure down to the last detail.

The central lock with countersunk, side-mounted cylinder lock, together with the foldable key, protects against injury and damage. The individual locking mechanism prevents unintentional opening during transit - the anti-tilt protection makes it impossible to pull out multiple drawers simultaneously.

Technologies and features.

Modular Inlay System

This flexible solution for tool storage makes it possible to customise your tool trolley or tool box with 1/6, 1/3, 2/3 or 3/3 foam inserts.

Tool Control System

The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease

The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change.
