### Combination spanner sets OPEN BOX, metric

#### **OPEN BOX 13**

Product no. 96400805

GTIN 4018754080618 **OPEN BOX 13/26** Model

Label.

Combination spanner set OPEN BOX 13/26 6-32 26 pcs.

Properties.

- · metric, identical end sizes
- ring-end cranked 15°, jaw angled 15°
- · reinforcement between jaw and shaft
- · durable, slim and lightweight design
- · extremely resilient and durable
- · high flexural strength due to double-T profile
- STAHLWILLE's rounded finish ensures a non-slip, pleasant feel
- · drop-forged, hardened, and cooled in an oil bath
- Chrome Alloy Steel, chrome-plated
- DIN 3113 Form A/ISO 7738 Form A
- · in sturdy cardboard packaging

### Benefits.

Made in Germany - Combination spanner set in cardboard packaging, 26 pcs.-pcs., 6-32 mm, ring side 15° angled, DIN 3113 Form A / ISO 7738 Form A, Chrome Alloy Steel.

# Product highlights.

STAHLWILLE spanners have a high-quality surface finish with good grip, making it possible to work safely and efficiently, even with greasy hands. The non-slip property improves control during handling.

#### A solution for every situation.

Our combination spanners are available in different versions (metric, imperial, long, with Spline-Drive profile) and as sets in textile bags, roll-up tool pouches or TCS inlays.

### Technologies and features.

### Double-T profile

Our combination and ring spanners have an additional recess in the middle of the tool. Similar to the principle of a double-T beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

#### Thin-walled rings

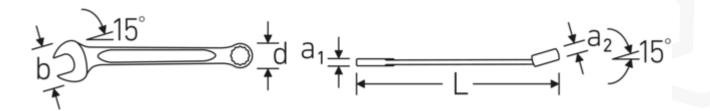

The thin wall diameter of our rings makes it easier to work in confined spaces. The ring sides are taller than standard nuts, which prevents jamming.

#### Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.
