IN PROGRESS

Individual.

The four handle sizes for the screwdrivers are designed specifically to match the drive profiles.

Outstanding craftsmanship.

The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

Robust.

Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.

Versatile.

The lever hole allows even more power and torque if necessary.

Convenient.

The screwdrivers are available in a set - either conveniently housed in ES inserts or TCS safety inlays, designed for use with STAHLWILLE tool trolleys and tool boxes.

Technologies and features.

Tool Control System

The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

3K DRALL®

The STAHLWILLE 3K DRALL® handle with non-slip, special fibre-coated surface enables fatigue-free working and maximum power transmission. An ingenious opening serves both as a hanging hole and as a lever hole for additional force and high torque.
