

## Standard MANOSKOP® torque wrenches w.permanently installed ratchet

### 721 Quick

Product no.	50204020
GTIN	4018754268931
Model	721/20 QUICK

#### Label.

Torque wrench MANOSKOP® 721 Quick 40-200N·m 1/2" L. 483mm

#### Properties.

- click-type
- the measuring element is only under load while force is being applied, no need for manual reset to zero
- rapid setting thanks to easy-action locking lever in the handle
- ergonomically designed, non-slip adjuster with a thumb recess
- dual stop signal
- twin scales N·m/ft·lb
- optimised convex handle for strain-free working
- any force applied to the tool after the 'click' or applied in the opposite direction to the current function – e.g. forcible loosening of a jammed screw - does not act on the trigger mechanism and cannot cause damage to it
- all the sensitive components are protected by the sturdy tubular steel housing
- calibration using perfectControl® calibrating unit No 7794 or calibration system No 7706. Readjustment does not require disassembly
- certificate in accordance with DIN EN ISO 6789-2:2017
- **display deviation value  $\pm 4\%$**

## Benefits.

Made in Germany – STAHLWILLE release torque wrench, ratchet with punch square, length 483 mm, with calibration certificate (DIN EN ISO 6789-2:2017), 50204020.

Lightning-fast and precise torque adjustment.

Patented, low-wear release system with bending rod.

Continued loading after release or loading in the opposite functional direction will not damage the torque wrench.

## Product highlights.

### Rapid adjustment.

Easy and quick adjustment of the torque is carried out by an easy-to-operate clamping lever in the handle. The scale can be moved quickly and safely with an ergonomically shaped, non-slip adjustment element with thumb recess.

### Adjustment does not require disassembly.

Quick adjustment from outside, no disassembly of the torque wrench required, with two adjustment points for the maximum & minimum values.

## Technologies and features.

### Factory calibration certificate (ISO calibration)

Our torque tools, transducers, and test equipment are delivered with a factory calibration certificate in accordance with DIN EN ISO 6789-2:2017, and based on DKD-R 10-8 for traceability of the measuring equipment.

### 2-component handle

Our 2-component handle is non-slip and ergonomically designed. It is resistant to the most common oils, greases, fuels, brake fluids, and Skydrol. The arrow markings on the handle indicate the direction of operation.
