3 PH cross-head screwdrivers **No. 4830**: PH1; PH2; PH3

## Benefits.

With the Tool Control System, the tools fit into chemical-resistant safety foam inlays with high-precision, 3D cutouts.

## Product highlights.

### Individual.

The four handle sizes for the screwdrivers are designed specifically to match the drive profiles.

### Outstanding craftsmanship.

The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

### Robust.

Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.

### Versatile.

The lever hole allows even more power and torque if necessary.

### Convenient.

The screwdrivers are available in a set - either conveniently housed in ES inserts or TCS safety inlays, designed for use with STAHLWILLE tool trolleys and tool boxes.

## Technologies and features.

### Tool Control System

The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

### 3K DRALL®

The STAHLWILLE 3K DRALL® handle with non-slip, special fibre-coated surface enables fatigue-free working and maximum power transmission. An ingenious opening serves both as a hanging hole and as a lever hole for additional force and high torque.
