1 pin punch no. 109/6: 3.4 mm
1 punch, octagonal no. 104/120: 120 mm

Product highlights.

Complete solution for industry.
Our extensive range includes high-quality tools for a wide range of applications, such as vehicle maintenance, general repairs or assembly and disassembly work. It includes spanners with various sizes, sockets up to 32 mm, a large bit set, a wide selection of pliers and much more. With this equipment, you get a broad base for a wide range of applications in the automotive, electrical and mechanical engineering industries.

Takes on anything.
High-quality materials such as the tightly welded stainless steel tray ensure the durability typical of STAHLWILLE and prevent liquids from penetrating the interior of the trolley. The 877 x 481 mm work surface is particularly suitable for working on large components. Thanks to its robust construction, the TTS 93 achieves a static load capacity of 500 kg. The drawers can be loaded with 30 kg thanks to reinforcements, and the bottom drawer can even be loaded with 45 kg.

Full configuration as standard.
Whether paper roll and spray can holders, all-round impact protection with shock absorption, perforations on both sides for attaching accessories, locking brakes or oil and acid-resistant smooth-running castors (Ø 125 mm) with thread protection. Our tool trolley has many features - as standard.

Technologies and features.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease
The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change.
