2 PH cross-head screwdrivers **No. 4830**: PH1; PH2

Product highlights.

PRODUCT IMAGE
IN PROGRESS

Individual.

The four handle sizes for the screwdrivers are designed specifically to match the drive profiles.

Outstanding craftsmanship.

The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

Robust.

Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.

Versatile.

The lever hole allows even more power and torque if necessary.

**Technologies and features.****3K DRALL®**

The STAHLWILLE 3K DRALL® handle with non-slip, special fibre-coated surface enables fatigue-free working and maximum power transmission. An ingenious opening serves both as a hanging hole and as a lever hole for additional force and high torque.
