

QuickRelease safety locks

7161

Product no. **54100072**
GTIN **4018754230075**
Model **7161-3**

Label.

QuickRelease safety locks

Properties.

- prevents removal of the insert tools
- is locked with a safety screw on the head of the torque wrench
- after assembly, the insert tool can be inserted but not removed
- interchangeable insert tools can be used again after loosening the safety screw
- a TORX® screwdriver with hole in the tip (No. 4656, T20, product no. 46563020) or a screwdriver bit with hole in the tip (No. 1442, T20, product no. 08160020) can be used to operate the safety screw
- for other torque wrenches on request

Technologies and features.

QuickRelease

The QuickRelease safety lock prevents unintentional loss of sockets and insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.
