

Ratchet spanner sets FastRatch

FastRatch 240

Product no.	96411005
GTIN	4018754289189
Model	FastRatch 240/5

Label.

Ratchet spanner set FastRatch 240/5 10-19 5 pcs.

Properties.

- particularly suitable for union joints
- for metric and imperial bolted joints
- slim ergonomic design
- made from stainless, tempered steel
- in robust polyester roll-up tool pouch with hook-and-loop fastener
- mesh inserts allow visibility of the tools
- a compact storage solution to keep your tools safe
- embroidered STAHLWILLE logo

Benefits.

Unrivalled FastRatch ratchet spanner set for hexagon union nuts.

Combines the advantages of several tools: Centering on the screw head of a ring spanner, lateral fitting of an open-ended spanner and the convenient ratcheting of a ratchet spanner.

Thanks to the sophisticated technology of the 'opening ring' it can perform perfectly, even in tight spaces which are difficult to access such as cable screw connections.

The distinctive STAHLWILLE rounded finish ensures the combination ratcheting spanner is comfortable to hold and is easy to grip, ensuring safe working, even with oily hands.

The practical roll-up tool pouch is a well-organised storage solution for tool boxes and tool cases.

Product highlights.

PRODUCT IMAGE
IN PROGRESS

Three in one.

The ratchet spanner is multifunctional: combination of ring spanner, open-ended spanner and a ratchet for the highest degree of technical flexibility and reliability when carrying out work processes.

PRODUCT IMAGE
IN PROGRESS

Fixed self-clamping effect.

The screw profile consists of hinged jaws that tighten when torque is applied, transferring force to the flanks of the screw head. The ratchet spanner's closing mechanism ensures a secure and centered fit on the screw. When unloaded, the integrated closing spring provides a reliable connection between the tool and the screw.

PRODUCT IMAGE

Easy to use.

Light pressure on the thumb release opens the spanner, allowing it to be slid sideways onto the hex screw. The arrow marking on the spanner head indicates the direction of operation.

PRODUCT IMAGE

Excellent workmanship.

The tool is made of high-quality stainless steel, which gives it outstanding stability and resistance to continuous use.
