

Combination spanner sets OPEN BOX, metric

OPEN BOX 14

Product no. **96401006**
GTIN **4018754080724**
Model **OPEN BOX 14/11**

Label.

Combination spanner set OPEN BOX 14/11 8-22 11 pcs.

Properties.

- **metric, identical** end sizes
- long design for higher power transmission
- ring-end cranked 10°, jaw angled 15°
- reinforcement between jaw and shaft
- durable, slim and lightweight design
- extremely resilient and durable
- high flexural strength due to double-T profile
- STAHLWILLE's rounded finish ensures a non-slip, pleasant feel
- drop-forged, hardened, and cooled in an oil bath
- Chrome Alloy Steel, chrome-plated
- DIN 3113 Form B/ISO 7738 Form B
- in robust polyester roll-up tool pouch with hook-and-loop fastener
- mesh inserts allow visibility of the tools
- a compact storage solution to keep your tools safe
- embroidered STAHLWILLE logo

Benefits.

Made in Germany - Combination spanner set, 11 pcs., 8-22 mm, ring side angled 15°, DIN 3113 Form B / ISO 7738 Form B, Chrome Alloy Steel, chrom plated.

Special manufacturing process makes thin-walled rings possible - perfect for working in places that are difficult to access.

The practical roll-up tool pouch provides a well-organised storage solution.

The long force loading point requires less effort with constant torque.

The AS-Drive profile prevents damage to the fastener caused by force being applied to the edges of the nut or bolt.

Product highlights.

IN PROGRESS

Non-slip surface

STAHLWILLE spanners have a high-quality surface finish with good grip, making it possible to work safely and efficiently, even with greasy hands. The non-slip property improves control during handling.

A solution for every situation.

Our combination spanners are available in different versions (metric, imperial, long, with Spline-Drive profile) and as sets in textile bags, roll-up tool pouches or TCS inlays.

Organised storage.

The set is stored in the pockets of a practical roll-up tool pouch. This makes it convenient and space-saving to carry around. Transparent mesh inserts allow you to see at a glance whether your tools are complete.

Technologies and features.

Double-T profile

Our ring, open-ended and combination spanners have an additional recess in the middle of the tool. Similar to the principle of a double-T beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Thin-walled rings

The thin-walled diameter of our rings makes it easier to work in confined spaces. The ring wall is deeper than standard nuts, which prevents jamming.

Offset Shaft Design

Our spanners are specially designed with additional reinforcement in the load zones where the greatest amount of force is transmitted - namely where the jaw meets the shank - in order to prevent deformation.

Technical attributes.

Contents	8; 9; 10; 11; 12; 13; 14; 15; 17; 19; 22 mm
Model No.	14/11
Jaws angled	10 °
Range	8-22
DIN	DIN 3113 Form B / ISO 7738 Form B
Alloy	Chrome Alloy Steel, chrom plated
Surface	chrome-plated
Number of tools	11 pcs.

Logistics data.

Product no.	96401006
GTIN	4018754080724
Weight (g)	1137 g
Volume (packaged, dm³)	4.455 dm ³
Packing standard	1
WEEE/ElektroG	nicht ear-pflichtig
Customs tariff no.	82041100
Country of origin AWR	GERMANY
Region of origin	Nordrhein-Westfalen
Packaging	in robust roll-up tool pouch
Depth mm (IFS)	300
Width mm (IFS)	95
Height mm (IFS)	30

Weight (gross, kg)	1,545
Weight PAP (kg)	0,000
Weight PVC (kg)	0,008
Length (packaged, mm)	300
Width (packaged, mm)	165
Height (packaging, mm)	90
